

***Molecular Complexity and Diversity by  
Multicomponent Reaction Design***

**Prof. Dr. Romano VA Orru**

**VU University Amsterdam, The Netherlands**

**Friday 21th May, 2010. ICIQ Auditorium, 12 p.m.**

Romano V. A. Orru studied molecular sciences at the Agricultural University in Wageningen, the Netherlands, where he obtained his PhD in 1994. From 1996–2000 he worked in the group of K. Faber at the Technical and Karl-Franzens Universities (Graz, Austria). In early 2000 he was appointed assistant professor and later associate professor at the Vrije Universiteit Amsterdam.

Since 2007 he has been a full professor of synthetic and bioorganic chemistry. His current research focuses on the development of novel, diversity oriented, synthetic methodology for the synthesis of pharmaceutically relevant compounds and natural products.
